ABOUT

CONFEDERATION OF INDIAN INDUSTRY

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

ABOUT

CII SCHOOL OF LOGISTICS

The CII School of Logistics is a unique Industry-Academia tie-up created for the purpose of producing professionals of international standard by changing the way higher education is delivered in India.

Industry Integrated System

In order to cater to the ever-growing needs for Supply Chain Professionals globally both in Manufacturing and Logistics Supply Chains, School of Logistics constantly endeavour to transform the higher education process through “Industry-Ready and Competence Based Practices” thereby carving skilled professionals who can meet the industry demands and in turn excel in their job roles.

Carving world class SCM Professionals

The strategic partnership between India’s Apex Industry body CII and Amity University, India’s leading private educational institution together evolve a competency-based practice-led industry-ready educational program not only produce students with academic excellence but also with refined soft-skills to deliver the professional needs from the word go. Currently located at Amity University Noida, Mumbai and Kolkata campuses, the partnership envisages more campuses to be established in South Indian cities too, housing both Indian and International students.

CII School of Logistics Advantage

1. Competency based education-course curriculum is designed, delivered, and assessed by the Logistics and SCM industry experts.
2. Real Time industry exposure through CII conferences, industry visits and guest lectures
3. Digital and Soft skills imparted in all semesters
4. Students from 30 different states, hence eligible for Pan India Locations
5. Three Locations of the School: Noida, Mumbai, Kolkata

INDUSTRY ACADEMIA CONNECT

The CII School of Logistics MBA Program curriculum and pedagogy is fully designed by Industry Experts and Academia Professionals customized for industry needs yet conforming to UGC/AICTE norms and Accreditation Bodies, thereby not only committed to produce Industry-Ready Professionals, but also human resources as national assets who architect national developmental process.

Interact with Experts!

With the kind of platform that CII Industry network provide to students enrolled for School of Logistics MBA Program through participations in Events-Seminar-Guest Lectures Industry visits, students are unfolded with “Knowledge House Treasure and 360 Degree SCM industry Insights” that can be limited only by their aspiration levels.

The interaction and networking opportunities with industry top leaders and specialists through student’s deep-dive ability, further enhances their knowledge base to approach and solve industry challenges and to create an analogy to apply in their real-time work area when stepping through their career mapping.

PRACTICE BASED PEDAGOGY

Faculty

Some of the best minds and most knowledgeable subject matter experts from the domain of logistics and supply chain management are the part of the core faculty at the school. Visiting faculty across the stream visit the campus regularly and provide students deeper perspectives into supply chain and logistics.

Case Studies

Students have access to real life case studies and research projects. This helps in honing their decision-making skills and give them a taste of what they can expect indifferent business situations. These are some of the vital steps in their preparation to become top-class professionals.

Site Visits

Regular visits to logistics hubs, ICDs and factories are part of the curriculum. These will ensure students develop a greater understanding of inner workings of the industry which classroom sessions cannot replicate.

INDUSTRY SPEAK

Discussions between CII, industry representatives, and academia highlight a key challenge: preparing industry-ready candidates and shaping future leaders in logistics and SCM. Instead of direct partnerships between industry and academia, CII serves as the industry's voice to design and deliver courses tailored to its needs. These programs incorporate technical industry requirements, ensuring students are well-equipped to become skilled professionals in logistics and SCM.

Mr. R Dinesh
EXECUTIVE CHAIRMAN
Chairman- CII Institute of Logistics
Executive Chairman, TVS Supply Chain Solutions

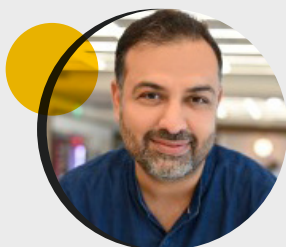

Mr. K.V. Mahidhar
HEAD & EXECUTIVE DIRECTOR
CII Institute of Logistics

The CII School of Logistics trains professionals for the logistics and supply chain management (SCM) industry. Its programs are designed and guided by industry experts to improve efficiency in the sector. These programs offer young people a great opportunity to build their careers and gain knowledge in the growing logistics and SCM field. The goal is to help India become a global leader in logistics.

Education is key to India's growing logistics sector. The CII Institute of Logistics, founded in Noida (2017) and Mumbai (2019), trains workers in advanced technologies and supply chain management. By building global partnerships, it helps create a skilled workforce and supports national development.

Mr. Nitin Vyas
CHAIRMAN
CII-Academic Advisory Group (AAG) Managing
Director & CEO Beumer India

Mr. Abhishek Luthra
MEMBER
Solutions De Technology Automation Robotics
(STAR) & General Manager - Supply Chain
Transformation The Coca Cola Company

India urgently needed a professional training institution like the CII School of Logistics, as the logistics sector contributes 20–30% of the GDP. Growing up in the supply chain industry and graduating from IIT Delhi in 2010, I witnessed how logistics was unorganized and rarely a preferred profession. It's inspiring to see increasing support for logistics, especially with the rapid growth of e-commerce over the past two decades.

PROGRAMS OFFERED

MBA - Logistics & Supply Chain Management

The 2-year program focuses on excellence in logistics and supply chain management which is one of the key areas for an organization to succeed. This is an industry integrated competency-based program aimed at producing professionals ready to succeed in the competitive global market.
